## Hyland Software

**More than just a company**  
**More than just a career**

It's time to find the career that's right for you. At Hyland, you'll do challenging work at a growing, innovative technology company. We're hiring more than 200 positions in 2011. If you're interested in filling one of them, join us at our Career Expo.

- Meet with managers and employees from departments throughout the company.
- Come learn more about positions in Software Development, Software Testing, Technical Support, Solution Consulting, Sales and more.
- See what it means to work at a company that knows how work should be.

If all you've heard about us is that we have two slides and free pop, then you're missing what really makes Hyland different. That stuff is cool, but what really matters in a job isn't whether you wear a t-shirt or tie to work. What matters is that we give our employees fulfilling, rewarding careers. Come see if one of them is right for you.
